

## GET RID OF HUMORS

Hood's Sarsaparilla is the Medicine to Take—Makes Pure Blood.

Dry, moist, oily tonic, plump cells, and other eruptions come from humors, which may be either internal or acquired through defective digestion and assimilation.

To treat these eruptions with drugs, medicine is dangerous.

Hood's Sarsaparilla, the oil reducing medicine, helps the system to discharge the humors and improves digestion and assimilation.

Get Hood's Sarsaparilla from your druggist. It may be confidently relied upon to do its work. It purifies the blood, tones the stomach, and builds up the whole system. It goes to the roots of diseases, and its beneficial results are permanent. It tells things to rights in the system. Remember to ask for Hood's Sarsaparilla, because nothing else acts like it, and nothing else can take its place.

## MUCH THIRD CLASS MATTER GOES ASTRAY

Postmaster Oshmitz desires to call the attention of the public to the following notice from the post office department:

"Frequent complaints are received that pamphlets and other advertising matter containing return postcard, blotters, etc., fastened together with clips, and without wrapper, are found in the mails with the clips missing and the inclosures so scattered as to render it impossible to reassemble them also that the clips are injurious to cancelling machines."

The exclusion from the mails, without warning of circulars fastened with clips would doubtless cause considerable annoyance and embarrassment to many patrons of the postal service who may have such circulars in course of preparation, but it is desired to say that the admission to the mails of such matter is not favored by the department and postmasters are directed to discourage in every way practicable the mailing thereof. The discontinuance of the use of clips as indicated will, it is believed, prove beneficial both to the postal service and its patrons, as advertising matter if wrapped or inclosed in envelopes will reach addressee in a more presentable and satisfactory condition. It is hoped that the attention given this matter by postmasters will be as effective as to render other action unnecessary." Otto Praeger, Second Ass't. P. M. General.

**I She Told Her Neighbor**  
"I told a neighbor whose child had crept about Foley's Homes and Tar," writes Mrs. Rekamp, 204 Norman St., Covington, Ky. "When she gave it a couple doses she was so pleased with the change she didn't know what to say. This related relieves coughs, colds, croup and whooping cough. Sold everywhere."

## SANTA FE BOOK GIVES FACTS ABOUT COUNTY

## "IN A BAD WAY"

Guthrie a Guthrie Reader Will Feed Grateful for This Information. It soon back gives out; the man loses weight, and the urinary trouble set in.

Perkins, John, editor, are "in a bad way."

Brown's Kidney Pills are for weak kidneys.

Local evidence proves this recent.

Mr. May, citizen, 625 N. Harrison Ave., Guthrie says, "I started to drink beer and as a result I suffered from indigestion, a sharp pain starting from my liver and I began to fear that serious results would follow if I didn't check the trouble in time. When I heard Brown's Kidney Pills were good, I took a glass and in a short time after the following day, I was convinced of their merit. My health soon became strong and free from pain and has not bothered me since."

Price 50¢ at all dealers. Two cans make six for a dollar, nearly as good as Kidney Pills—the same that Dr. Phillips had. Foster-Mallard Co., Buffalo, N. Y.

## COLONIZATION DEPARTMENT OF RAILWAY SYSTEM IN BOOSTING WORK

The colonization department of the Santa Fe has issued another circular booklets on Oklahoma. Of course, the booklet says,

Oklahoma Colonization Society of Noble county, the Santa Fe railway comes into Noble county. The eastern third of the country is somewhat like the state of Indiana.

The soil of the county is black and loamy in the west, and light on the hills of the middle portion, and more sandy in the eastern and southern parts.

The annual rainfall over the county is thirty-five inches.

Values of land are from \$20 to \$100 per acre for improved soil, from \$5 to \$20 for unimproved.

The county grows cotton, Indian corn, batatas, wheat, oats, rye, barley, alfalfa, sorghum, melons, beans, and orchard and garden fruit in great abundance. The sunflowers produce as abundantly that the growers have formed a sales association in the east and southeast peanuts are grown in the valleys, cotton and Indian corn, melons, kales, corn, and peanuts, the others all over the county.

Peaches, apples, plums, cherries and berries are the industries on some farms. 700 cars of peaches being shipped from the county in 1915.

The dairy industry is profitable sending the cream to small dairymen in the county, and to the college creamery at Stillwater. On the uplands of the eastern one-third of the county hickory, post oak, red oak, and green ash grow.

Wanted: Management of a ranch ranch or farm, well experienced in horse breeding, cattle, horses, and feed.

Whipping Cough

One of the most successful accusations in one of the charges is Chamberlain's "Death Record" & W. McWhorter, Brandon Springs, Arkansas, who had whooping cough in his last case, and had to be hospitalized for three months.

He was treated at Dr. George Chamberlain's Hospital and it cost him \$1000.00. Oklahoma everywhere.

Children Cry FOR FLETCHER'S CASTORIA

HE IS CHAMPION EGG-SUCKER

Eskridge, Kan., May 2.—An egg sucker man, J. K. Campbell, claims the unique distinction of sucking more eggs than any other man in the country. He recently cracked eighteen raw eggs in one minute in a wager. So far no one has matched his claim for a champion to determine the county champion.

Atchison said the work he did could be handled easily by other city officials who haven't any too much to do.

STARS OF THE GERMAN AVIATION CORPS

Lieutenant Boeckle.

Lieutenant Immelmann.

Each of these two members of the German Military Aerial corps, Lieutenant Immelmann and Lieutenant Boeckle, has defeated thirteen aeroplanes of the allies, and destroyed

Both men wear the iron cross and other decorations of the German army. They are heroes in Germany, and though both are young men their names are household words.

## SELL FAMILY DINNERS ON BERLIN STREETS

## "GOOLASH CANNON" INTRODUCED AS RESULT OF WARS EXACERBATIONS

(By Associated Press)

Berlin, May 2.—The portable field kitchens which the soldiers call "goatish ovens" are being introduced into the arsenals of the poorer members of Berlin, selling warm dinners to all comers for 25 pfennig a portion.

The town council of Berlinberg, a big suburb to the north of Berlin, was the first to adopt the idea.

Many of the working people have no time to cook for themselves and they can go to eat more cheaply by getting a meal at certain points and distributing the food through the field kitchens.

The basements of some big school houses have been fitted up as kitchens where in large boilers, each holding over a hundred gallons more and more stable than the whaleback, are collected in a palatable stew. The "goatish ovens" which heat the product through the stones for which each provided with a brazier under which a fire is kept burning.

The idea has become so popular that it is predicted that the "goatish oven" will long survive the war which popularized it.

Shortage of Errand Boys

Winnipeg, Canada, May 3.—There is a big shortage of errand boys and other boys in this province and, in several other Canadian provinces as well, walked out of his office as chief clerk of the city of New York and left a hefty sum \$20,000 to the whistling boys who go many years ahead.

The reason for the shortage lies in the fact that more than 16 years old are eligible for army service and a large part of these have enlisted. Another cause is due to the school laws which in this province and in other districts compel the attendance at school of boys 14 years old and younger.

The problem has been solved here by the telegraph companies who are employing crippled soldiers for messenger boy work.

Australian Wheat

London, May 3.—The problem of transporting the Australian wheat crop is just now occupying the attention of the government and the ship owners.

The exportable wheat surplus of Australia is about 2,000,000 tons of which only about 300,000 tons have so far been brought to Europe. To bring the remainder this year would require about 700 voyages, and it is difficult for the owners to find sufficient ships owing to the general scarcity of tonnage. The distance from Australia is about 12,000 miles, as compared with the 3,000 miles which separate Canada from this country.

The difficulty in transporting the wheat crop is particularly disappointing to the Australian growers who increased their wheat area over that

of the year before.

Victor Artists Entertain WITH SUPERB MUSIC

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage liquefied into a heavy tea with salvia added will turn gray, streaked and feathered beautifully dark in appearance. Just a few applications will prove restorative. If your hair is falling streaked or gray, mixing the Sage Tea and Salvia together and though it is temporary. An answer may be to get a 30 cent bottle of Myrrh Sage and Sulphur Compound at any drug store for use. This is the old time recipe improved by the addition of other herbs.

While white, gray, faded hair is natural, we all desire to retain our youth, appearance and attractiveness. By keeping your hair with Sage and Salvia compound no one can tell because it is so evenly steady. Very fast, however, it is necessary to bathe, taking one small strand at a time, by means of all gray hairs disappears, and after another application or two, your hair becomes beautifully dark, glossy, soft and lustrous.

This preparation is a delightful toilet cosmetic and is not intended for the cure, mitigation or prevention of disease.

For sale by Owl Drug Store.
